## **Innovation Drives Development**

**June 25 – 28, 2013, Tianjin, China**  
**(2<sup>nd</sup> Round Announcement)**

On June 25-28, BIOECONOMY 2013 - the 2013 International Conference of Bioeconomy, hosted by China's Ministry of Science and Technology, and Tianjin Municipal People's Government, will be held in Tianjin, P.R. China. The conference provides an international platform for accelerating the technology transfer and commercialization of biotechnological innovations and promoting development of the emerging biotech industry.

### **Sponsors**

Ministry of Science and Technology, P. R. China  
Tianjin Municipal People's Government

### **Co-Sponsors**

United Nations Educational, Scientific and Cultural Organization  
United Nations Industrial Development Organization  
European Union

### **Organized by**

China National Center for Biotechnology Development  
The Science & Technology Commission of Tianjin Municipal People's Government  
Tianjin Binhai New Area People's Government

## Organization

### Chairs

WANG Zhigang	Vice-Minister, Ministry of Science and Technology, P. R. China
HUANG Xingguo	Mayor, Tianjin Municipal People's Government

### Chairs of Organizing Committee

WANG Weizhong	Vice-Minister, Ministry of Science and Technology, P. R. China
HE Shushan	Vice-Mayor, Tianjin Municipal People's Government

### Chairs of Scientific Board

SANG Guowei	Academician, Vice Chairman of the 11 <sup>th</sup> National People's Congress Standing Committee
Leland H. Hartwell	2001 Nobel Laureate in Physiology or Medicine, Professor, Biodesign Institute's Center of Arizona State University, United States

### Secretary General

MA Yanhe	Director General, Department of Social Development Science and Technology, Ministry of Science and Technology, P. R. China
HUANG Jing	Director General, China National Center for Biotechnology Development
ZHAO Haishan	Director General, The Science & Technology Commission of Tianjin Municipal People's Government
GUO Jingping	Deputy Mayor from Tianjin Binhai New Area

## Deputy Secretary General

LI Baochun	Deputy Director, The Science & Technology Commission of Tianjin Municipal People's Government
MA Hongjian	Deputy Director General, China National Center for Biotechnology Development
JIA Feng	Director-General Level Consultant, China National Center for Biotechnology Development
DONG Zhifeng	Deputy Director-General Level Consultant, China National Center for Biotechnology Development
HUANG Yalou	Director, The Science & Technology Commission of Tianjin Binhai New Area

## Agenda

Date	Morning	Afternoon
June 25	Opening Ceremony, Keynote Speeches	Academic Sessions
June 26	Academic Sessions	

## Keynote Speakers

SANG Guowei	Academician, Vice Chairman of the 11 <sup>th</sup> National People's Congress Standing Committee
Leland H. Hartwell	2001 Nobel Laureate in Physiology or Medicine, Professor, Biodesign Institute's Center of Arizona State University, United States
CHENG Jing	Academician, Medicine School of Tsinghua University, Director of National Engineering Research Center for Beijing Biochip Technology

## Sessions

### Session I: Frontiers of Life Science

**Topics:** Session I will focus on genomics, proteomics, metabonomics, glycobiology, brain and cognitive science, synthetic biology, systems biology, translational medicine, computational biology, stem cell gene regulation and reprogramming technology, human reproduction and development. The session will cover the basics, the current advancement and trends relating to life science development.

#### Co-Chairs:

CHENG Jing      Academician, Professor, Medicine School of Tsinghua University, Director of National Engineering Research Center for Beijing Biochip Technology

Xiangdong Fu      Professor, University of California in San Diego

**Time:** June 25, Afternoon; June 26, Morning, 2013

**Venue:** Binhai International Convention and Exhibition Center

(5th Avenue, TEDA, China)

#### Speakers and Topics:

**Speaker:** Xiangdong Fu, Professor, University of California in San Diego

**Topic:** Functional Genomics Approaches to Drug Discovery

**Speaker:** ZHAN Qimin, Academician, Vice-president Chinese Academy of Medical Science and Peking Union Medical College

**Topic:** Concept and practice of cancer translational medicine

**Speaker:** Zee Upton, Professor, Institute of Health and Biomedical Innovation, Queensland University of Technology

**Topic:** Taking a wound healing product from discovery to market

**Speaker:** YUAN Yingjin, Vice President, Tianjin University

**Topic:** Re-designing and constructing microbial consortium for enhanced Vc production

**Speaker:** LIU Xuezhong, Professor, Department of Otolaryngology, Hussman Institute for Human Genomics, University of Miami

**Topic:** Implementing genomic medicine in care of patients with impaired hearing

**Speaker:** WANG Deping, Director, Division of Frontier Technology, China National Center for Biotechnology Development

**Topic:** Frontier of Biotechnology in China: Progresses and Perspective

**Speaker:** ZENG Fanyi, Researcher, Medical Genetics Institute of Shanghai Jiao Tong University, and Chief Scientist, National Basic Research Program

**Topic:** Studying Stem Cell Biology Using in Utero Transplantation in Animal Models

**Speaker:** LUO Dan, Professor, Department of Biological and Environmental Engineering Cornell university

**Topic:** DNA as a nanoscale material and its real-world applications in biotechnology including synthetic biology

**Speaker:** LI Yixue, Professor ,Shanghai Center for Bioinformation Technology

**Topic:** Big biological data: Opportunity and Challenge

**Speaker:** Catherine E. Costello, Professor, Boston University School of Medicine

**Topic:** Advances in technology that foster the application of proteomics and glycomics to the investigation of human diseases

**Speaker:** QIAN Xiaohong, Professor, Associate Director, State Key Laboratory of Proteomics

**Topic:** Proteomics and bio-economy

**Speaker:** YU Jun, Associate Director, Beijing Institute of Genomics, Chinese Academy of Sciences

**Topic:** The new paradigm of genome biology: precise, personalized, and on multiple tracks

**Speaker:** Ron Quinn, Professor, Eskitis Institute, Griffith University, Australia

**Topic:** Lead identification based on bioaffinity FT-ICR-MS: expanding the scope of structural genomics

**Speaker:** Emre Yaksi, Director, Neuroelectronics Research Flanders, Belgium

**Topic:** Studying neural circuits mediating fear and anxiety in zebrafish brain

**Speaker:** WANG Dong, Professor, Medicine School of Tsinghua University

**Topic:** The Transcriptional Reprogramming in Prostate Cancer Cells

**Speaker:** Chengjun Huang, Senior Researcher, IMEC, Belgium

**Topic:** Micro/nano electronics enabled biosensor platforms

**Speaker:** DAI Pu, Professor, Department of Otolaryngology & Head Neck Surgery, Chinese PLA General Hospital

**Topic:** The development and application of a microarray of common deaf genes for massive screening of newborn in China

## Session II: R&D in Drug Innovation

**Topics:** Aiming to accelerate the development of drug innovation in China, Session II will highlight the latest progress and trends in domestic and international new drugs related R&D. Discussion topics include the latest cutting-edge technology of the small molecule antibody drug conjugates, stem cell therapy, vaccine and adjuvant, novel drug delivery system, new drug target discovery and validation, synthetic biology, interdisciplinary innovation and internationalization of Traditional Chinese Medicine, the future development strategy and key points of pharmaceutical technology innovation in China.

### Co-Chairs:

LIU Changxiao	Academician, Professor, Tianjin Institute of Pharmaceutical Research
Panos Constandinides	President of Biopharmaceutical & Drug Delivery Consulting LLC
Roman Szumski	Vice chair of research council, Canada

**Time:** June 25, Afternoon; June 26, Morning, 2013

**Venue:** Binhai International Convention and Exhibition Center  
(5th Avenue, TEDA, China)

### Speakers and Topics:

**Speaker:** Panos Constantidines, President of Biopharmaceutical & Drug Delivery Consulting LLC

**Topic:** Integrated drug discovery and development strategy and models

**Speaker:** Roman Szumski, Vice chair of research council, Canada

**Topic:** to be determined

**Speaker:** CHEN Zhinan, Academician of CAE, Professor, The 4th Medical University of PLA

**Topic:** Strategy in biological drug R&D

**Speaker:** ZHANG Mingqiang, VP of Amgen

**Topic:** Importance of translational medicine in drug discovery

**Speaker:** ZHANG Shuhong, VP of Process R&D, AbbVie R&D

**Topic:** Advance the AbbVie pipeline

**Speaker:** Ram Mahato, Professor, Medical Center, University of Nebraska

**Topic:** Emerging Trends in Development of Small Molecules, siRNA and miRNA Based Therapeutics

**Speaker:** Michael Varney, Gene, Roche

**Topic:** Introduction to genotech research and early development and the translation of biological insights into useful cancer therapies

**Speaker:** ZHANG Zhiyang, President of Changsha Sanji Biotech.Ltd.Co., Ltd

**Topic:** Target therapy and personalized medicine

**Speaker:** Paul Herrling, Novartis

**Topic:** Drug discovery for new antimalarials

**Speaker:** MA Hongjian, Vice General Director of China National Center for Biotechnology Development, MOST

**Topic:** Key project of drug innovation and progress

**Speaker:** TANG Lida, President of Tianjin Institute of Pharmaceutical Research

**Topic:** Drug Discovery & Development: Strategies and Management

**Speaker:** Matthew Cooper, Professor, Institute of Molecular Biosciences, The University of Queensland, Australia

**Topic:** Asian Century-Entrepreneurs & Science

**Speaker:** Maree Smith, Professor, School of Pharmacy, The University of Queensland, Australia

**Topic:** Therapeutic Innovation Australia: Queensland Node – an Australian Government Initiative for Accelerating Life Sciences Research Translation

**Speaker:** HE Wei, President of DTRM Biopharma

**Topic:** Small molecular drug innovation & development

**Speaker:** XU Tian, Professor, Yale University

**Topic:** Large-scale animal genetic screens for Identifying therapeutic targets and drugs: a solution for the R&D problem of the pharmaceutical Industry

**Speaker:** SHI Bin, Senior Scientist of Merck

**Topic:** Rodent cancer model for drug development: Regulation, consideration and selection

**Speaker:** ZHU Demin, President of Cureport Inc.

**Topic:** Nano Medicine: the stars in the evening sky

### **Session III: Food Safety Forum**

**Topics:** Session III provides the forum of scientific discussion on safety issues related to food, food additives and food-related products (e.g. food contacted materials), focused on key technological exchange on risk assessment, food standard, test methodologies, inspection and control. Main topics include technology requirements for food safety risk assessment, scientific evaluations of food additives and ingredients, test methods for food ingredients in Food Chemical Codex, food contaminants and the national standard on food safety, and developments regarding food safety test reagents and equipment.

#### **Co-Chairs:**

WU Yongning      Professor, Chief Scientist, China National Center for Food Safety Risk Assessment

Laurie H.M. Chan      Professor, Director, Center for Advanced Research in Environmental Genomics, University of Ottawa, Canada

**Time:** June 25, Afternoon; June 26, Morning, 2013

**Venue:** Binhai International Convention and Exhibition Center  
(5th Avenue, TEDA, China)

#### **Speakers and Topics:**

**Speaker:** CHEN Junshi, Academician, China National Center for Food Safety Risk Assessment

**Topic:** The New National Food Safety Control System of China

**Speaker:** John Spink, Professor, Director of Food Fraud Initiative, Michigan State University, USA

**Topic:** Food Fraud Database and Anti-Counterfeit Countermeasures

**Speaker:** WU Yongning, Professor, Chief Scientist, China National Center for Food Safety Risk Assessment

**Topic:** China National Food Safety Standard: Maximum limit of food contaminants

**Speaker:** WANG Hui, Professor, Director of Food Safety Center, Institute for Nutritional Sciences, Shanghai Institutes of Biological Sciences, Chinese Academy of Sciences

**Topic:** Advances in Research of Rapid Detection Technologies for Food-Borne Pathogenic Bacteria

**Speaker:** ZHOU Naiyuan, Deputy Director, Biosource and Biosafety Division, China National Center for Biotechnology Development, Ministry of Science and Technology

**Topic:** System Development of S&T and Food Safety

**Speaker:** Dmitry Edelev, Professor, President of Moscow National University of Food Production

**Topic:** Russian National Food Safety Standard

**Speaker:** WANG Shuo, Professor, President of Tianjin University of Science and Technology

**Topic:** The Hazardous Materials in Food Packing Migrating and Influencing Food Safety

**Speaker:** ZHANG Gaiping, Academician, Henan Academy of Agricultural Science

**Topic:** Development of Fast Test Kit for Illegal Chemical Usage in Animals

**Speaker:** Robert J Henry, Professor, Director of Queensland Alliance for Agriculture and Food Innovation, University of Queensland, Australia

**Topic:** Development of Rapid Methods for Food Analysis to Support Food Safety for New and Traditional Products

**Speaker:** SHEN Jianzhong, Professor, China Agricultural University

**Topic:** Antibiotics in Veterinary Medicine Practice and Food Safety

**Speaker:** Mary Harris, Professor, Colorado State University, USA

**Topic:** Trans fat and Infant health

**Speaker:** CasAkoh, Professor, University of Georgia, USA

**Topic:** Advancing Food Technology to Reduce Trans Fat Intake

**Speaker:** Lucy Yu, Professor, University of Maryland, USA

**Topic:** Esters of Chloropropanols: Formation and Mechanism

**Speaker:** Laurie H.M. Chan, Professor, Director, Center for Advanced Research in Environmental Genomics, University of Ottawa, Canada

**Topic:** Applications of Metabolomics on Food Safety Research

## **Session IV: Development of Medical Devices**

**Topics:** Session IV will discuss the current situation and development trends regarding BME, R&D priorities and direction, and opportunities and challenges for industry development. Presentations will involve innovation points concerning design, evaluation and test of medical devices, and the frontiers and hotspots of relevant fields of medical devices: biomechanics, biomaterials, medical imaging, biosensor, rehabilitation medical engineering, medical neural engineering, healthcare engineering and telecom medical devices.

### **Co-Chairs:**

FAN Yubo	Director, School of Biological Science and Medical Engineering, BUAA
Chiu S. Lin	Former Division Director, Office of Device Evaluation, CDRH, FDA

**Time:** June 25, Afternoon; June 26, Morning, 2013

**Venue:** Binhai International Convention and Exhibition Center  
(5th Avenue, TEDA, China)

### **Speakers and Topics:**

**Speaker:** Chiu S. Lin, Former Division Director, Office of Device Evaluation, CDRH, FDA

**Topic:** Development and Trend of Innovative Medical Device Technology

**Speaker:** FAN Yubo, Director, School of Biological Science and Medical Engineering, BUAA

**Topic:** Innovative Research on Medical Implants

**Speaker:** WANG Chunren, Director, Institute for Medical Devices Control, NIFDC

**Topic:** Preclinical Safety Evaluation of Tissue Engineered Medical Products

**Speaker:** Cheng-kung CHENG, Professor, School of Biological Science and Medical Engineering, BUAA

**Topic:** Insight of the Future Development on China Medical Industry-a Current China Orthopaedic Industry Perspective

**Speaker:** Guiqing Lily Yao, Professor, Primary Care and Population Sciences, Faculty of Medicine , University of Southampton

**Topic:** Cost- effectiveness analysis of computed tomographic colonography versus colonoscopy or double contrast barium enema for investigation of patients with symptoms suggestive of colorectal cancer: economic evaluation of two randomized clinical trials

**Speaker:** ZOU Hao, CEO, Neusoft A&T Diagnostics Co., Ltd.

**Topic:** The Tendency of Laboratory Automation System

**Speaker:** CHEN Siping, Professor, Department of Biomedical Engineering, School of Medicine, Shenzhen University

**Topic:** The Status and Development on Medical Industry Taking Example of Shen Zhen

**Speaker:** YU Mengsun, Academician, Institute of Aviation Medicine, Air Force

**Topic:** Human Performance Engineering

**Speaker:** Herbert F. Voigt, President, International Union for Physical and Engineering Sciences in Medicine

**Topic:** The Role of Academic Programs and International Federations in the Development of Medical Devices

**Speaker:** LI Xiuqing, Vice President, Shinva Medical Instrument Co., Ltd

**Topic:** A Study on the Industrial Technology Innovation System of China Medical Device

**Speaker:** Anthony Wilkinson, Medical Director, COOK Medical

**Topic:** Growing your business and R&D profile in the Asia Pacific Medical Device Market– the Cook Medical perspective

**Speaker:** YU Zhenhang, Deputy Chief, Frontier Biotechnology Division ,  
China National Center for Biotechnology Development

**Topic:** Analysis on the current status of China's medical device industry

**Speaker:** WANG Zhibiao, Director, National Engineering Research Center of  
Ultrasonic Medical

**Topic:** A Tentative Probe into Minimally-invasive and Noninvasive Medicine

**Speaker:** Shankhar KRISHNAN, Secretary General International Federation  
for Medical and Biological Engineering

**Topic:** Perspectives on future Trends in Medical Devices and Systems

## **Session V: Entrepreneurship and Investment**

**Topics:** Session V covers the megatrend of biotechnology investment and financing in China and the world, as well as the integration of research, enterprises, capital and science parks to promote the growth of pharmaceutical industry and the advancement of core competency of pharmaceutical companies. Special focus is on the explorations by Chinese biopharmaceutical parks in building a practical business model for project transformation to capture foreseen immense biotechnology business opportunities in the next decade.

### **Co-Chairs:**

YANG Xucai      Chairman, Tianjin Science and Technology Finance Holding Group Co., Ltd.

**Time:** June 25, Afternoon; June 26, Morning, 2013

**Venue:** Binhai International Convention and Exhibition Center  
(5th Avenue, TEDA, China)

### **Speakers and Topics:**

**Speaker:** Alan Eisenberg, Executive Vice President, Biotechnology Industry Organization

**Topic:** Western Drug Developers Look to China for Partnering

**Speaker:** Jonathan WANG, Senior Managing Director, OrbiMed Asia

**Topic:** Investing in China Healthcare and Life Science

**Speaker:** Darren Crombie, Deputy Director-General, Innovation and Science Development Group Department of Science, Information Technology, Innovation and the Arts Queensland Government, Australia

**Topic:** Government Policy in Growing a Life Sciences Industry Hub

**Speaker:** SHEN Zhilong, President, Xincheng management consultant Co., Ltd

**Topic:** Biotech pharmaceutical industry and the status of the capital market in Taiwan

**Speaker:** WANG Lin, Vice President, Tianjin International Joint Academy of Biotechnology & Medicine

**Topic:** Stimulating the discussion of biopharmaceutical industry innovation and entrepreneurial mode

**Speaker:** Jens Sundbye (Chairman of the EFB Danish regional branch office)

**Topic:** To be confirmed

### **Panel Discussion:**

**Host:** SHEN Zhilong, President, Xincheng management consultant Co., Ltd

**Topic:** *Finding opportunities in the Biopharmaceutical Industry-Thinking with the consideration of investors*

Jonathan WANG	Senior Managing Director, OrbiMed Asia
ZHONG Zhuchang	KGI Securities
MU Lei	Financial company equity investment at the executive director of the China development bank
JIANG Wei	Executive Vice President, YinHong (Tianjin) equity investment fund management Co.,Ltd
HUA Yutao	Vice Deputy of Biotechnology development center of chemical medicine and medical instruments of China
ZHAO Hua,	General Manager , TEDA VC

**Host:** ZHOU Wei, President & CEO, Shengjie Biotech

**Topic:** *Where to begin – Interpreting the route for Entrepreneurs*

ZHANG Dan	CEO and President, FMD developing Inc
YAO Xiaoqing	President, Tianjin Chasesun Pharmaceutical Co., Ltd
HONG Lei	Partner, Tianjin venture investment Co., Ltd
SUN Ming	Assistant of CEO, Tianjin Ringpu Bio-technology Company
LIU Xiangdong	General President, High-tech investment guarantee Co., Ltd
Michael Xue	Investment Director, Morningside Venture

## **Session VI: Talents in Biotechnology**

**Topics:** Session VI will focus on China's national strategies for innovation and talent-driven development. How to accelerate reform in talent policy concerning the recruitment of high-level and overseas talents to support the current rapid industrial progress? How to advocate the connection between basic research and industrial development and integrate the talent resource from universities, research institutions and industry, and how to encourage their communication and exchange of knowledge? Purpose of the discussion is to find the trend and explore better ways to enhance the environment for innovation and talent development and to recruit more talents.

### **Co-Chairs:**

RAO Zihe                      Academician, President, Tianjin International Joint  
Academy of Biotechnology and Medicine

David Jozsef Tapolczay      CEO, Medical Research Council Technology

**Time:** June 25, Afternoon; June 26, Morning, 2013

**Venue:** Binhai International Convention and Exhibition Center  
(5th Avenue, TEDA, China)

### **Speakers and Topics:**

**Speaker:** David Jozsef Tapolczay, CEO, Medical Research Council Technology

**Topic:** A New Paradigm of Business Model in Drug Discovery - the MRCT  
Proposal for China and UK Partnership in Healthcare

**Speaker:** Elizabeth Ray DeLong, Professor, Duke University

**Topic:** Science Training in the Evolving World of Biotechnology from the  
Perspective of Biostatistics

**Speaker:** Torsten Neuefeind, CEO, Proteros Biostructures

**Topic:** Protein Structure Accelerated Drug Discovery

**Speaker:** GAO Fu, Deputy Director, Chinese Center for Disease Control and Prevention

**Topic:** Entry and Release of Influenza Virus: Opportunity for Drug Development

**Speaker:** Shein-Chung CHOW, Professor, Duke University

**Topic:** Regulatory Consideration for Assessment of Biosimilars

**Speaker:** ZHU Jiang, Assistant Professor, Scripps Research Institute

**Topic:** Turning Immune Repertoire's Elite Antibodies into Super Therapeutics

**Speaker:** LI Ruiguo, Deputy Director, International Cooperation Division, China National Center for Biotechnology Development, Ministry of Science and Technology

**Topic:** China's Situation of Human Resources in Biotechnology and International Comparison on Enterprise Talent

**Speaker:** Robert Scott, Professor, University of British Columbia

**Topic:** Chronic Disease Management - a Telehealth 'Patient Centric' Approach

**Speaker:** HE Xi, Professor, Harvard University

**Topic:** Therapeutic Targeting of Wnt Signaling for Disease Treatment: Training of a New Generation of Scientists for Translational Biology

**Speaker:** SHEN Kang, Researcher, Stanford University

**Topic:** Model Organisms, Development and Diseases of the Nervous System

**Speaker:** Wen CHANG, VP, N. Asia Strategy and China Regulatory Sciences, Global Regulatory and Safety Sciences, BMS

**Topic:** Industry Prospect on Local Talent Development Through a BioPharma Model

**Speaker:** NI Binhui, Head of Strategy and Innovation of Asia R&D, Sanofi

**Topic:** Global Pharmaceutical Companies' Development and Challenges in China - Talentism

**Speaker:** XU Wenqing, Professor, University of Washington

**Topic:** Structural Studies of the Wnt Signaling Pathway and Implications for Cancer and Regenerative Medicine

**Speaker:** Mark Tucker, CEO, TTS Pharma Ltd

**Topic:** The Impact of NicoTest™ on the Emerging Chinese Smoking Cessation Market

**Speaker:** Fu-Sung HSIEH, Vice Chairman, Taipei Chinese Medicine Service Industry Union

**Topic:** Developing History of Herbal Medicine in Taiwan Traditional Green Energy Industry

*Note: The definite co-chairs, speakers and topics of the above 6 sessions are subject to what displayed in the venue.*

## Exhibition

In parallel with the conference, an international biomedical exhibition will be held. The exposition provides an international platform for research organizations, medical institutions, scientists and entrepreneurs from China and abroad to exhibit technologies and products. The exhibition, with stands of more than 300 enterprises worldwide, involves biomedicine, medical devices, health industry, medical cosmetics, etc., and covers an area of more than 10,000 square meters. The organizer of the exhibition is Tianjin Hengxin Exhibition Co., Ltd.

### Exhibition schedule

**Move-in:** June 23-24, 2013; 8:30-17:00

**Exhibition:** June 25-28, 2013; 9:00-16:30

**Move-out:** June 28, 2013; after 12:00

**Venue:** Binhai International Convention and Exhibition Center  
(5th Avenue, TEDA, China)

## Languages

English and Chinese

(Simultaneous interpretation will be provided at the Opening Ceremony.)

## Registration

Please register online at the website of the BIOECONOMY 2013 Organizing Committee [www.bioeco.net.cn](http://www.bioeco.net.cn) before June 20th, 2013.
